

ANTONIO C. LYON

FOUNDER AND CEO, U-GLOVE, INC.

Antonio Lyon is CEO of U-Glove and was actively involved in founding the consumer product company. His spirit of entrepreneurship has served as a driving force in the creation of the company and the development of the U-Glove business model. He also is taking a lead role in introducing the innovative company to key decision makers and analysts across the convenience store industry.

His vision guides the company as it addresses a significant unmet public health risk --- the transmission of a wide variety of communicable diseases at highly manipulated common surfaces such as fuel pumps at gas stations. By devising a solution that protects consumers while also opening up new avenues for outdoor alternative advertising, Lyon leads U-Glove's innovative approach to marketing.

Lyon gathered entrepreneurs and top executives for the new endeavor after several years working with New York Life and NYLIFE Securities. During his time in the financial services sector he received several industry awards and recognitions for successfully meeting highest sales and performance targets.

A graduate of Florida International University, Lyon returns to South Florida with his wife and two children.
